Exchange Programme

The European Exchange Programme is going from strength to strength. It is very popular and competitive among the Young Internists countries. The residents' experience is excellent and the participating Centers and Teachers have a lot of experience. As you may know, the Exchange Programme of EFIM offers opportunities for Young Internists to gain knowledge and skills in different countries, become more confident and self-reliant in your professional life, and experience the realities of other European countries. Each National Society selects one participant per year for the Programme. There are only 20 scholarships available each year, courtesy of EFIM, FDIME and AMGEN Europe.

For applications the candidate must fill in online application and submit the requested documents below.

- 1) Application form: <http://www.efim.org/efim-exchange-program-application-form>
- 2) Curriculum vitae
- 3) Motivation letter for the Exchange
- 4) Support letter from the National Society

Internal Medicine Flashcards

News

We would like to remind readers that the Editor in Chief selects two articles per issue that are deemed to be extremely newsworthy and are designated as "Free for View". Please see the Editor's Choice module. In addition we are proud to announce the 2nd Internal Medicine Flashcard which has recently been published. The link to this can be found in the Internal Medicine Flashcard module.

Internal Medicine Flashcards

The Internal Medicine Flashcards offer a platform to publish educational and interesting material, in the form of pictures (medical photos, clinical images, typical findings) and a brief clinical case, depicting classical medical conditions, and will be in the form of a quiz. The Internal Medicine Flashcards are not intended as a mere means of publishing case reports.
